

# Stress effects in amorphous silicon and SiO<sub>2</sub> films under ion irradiation

by Max Y.S. Siem

Report of a research project for the masters degree in applied physics  
at Delft University of Technology,  
performed at the FOM Institute for Atomic and Molecular Physics in  
the period June 2001 – August 2002

Supervisors:

Drs. T. van Dillen  
Prof. dr. A. Polman

Prof. dr. ir. P. Kruit
